

Alum Project

Friday, March 19, 2021 4:48 PM

Adding Constraints:

```
alter table ExampleTable
add (new_column varchar(20) default 'value1',
constraint ckExampleTable check (new_column in ('value1', 'value2', 'value3')));
```

```
alter table ExampleTable
add (new_column varchar(20) default 'value1',
constraint ckExampleTable check (new_column in ('value1', 'value2', 'value3')));
```
